Dear Democratic & Republican Chairpersons,

Fight Voter Fraud, Inc. is sending you documentation of issues with your voter rolls for your city/town. After almost three years of sending information to your registrars and finding many have not taken the time to remove the deceased voters and others that have moved; we are putting the notification of electors that should not be on your voter rolls into your hands to follow through and challenge these voters.

The integrity of the November 5, 2024 vote may be in question based on the inaccuracies of your voter rolls and the lack of certification and education hours by your registrars.

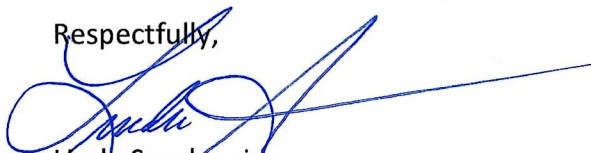

The state, as well as the cities and towns are clearly in violation of the NVRA (National Voter Registration Act). We are a nonpartisan, nonprofit 501 (c) 4 organization that has been working to get the voter rolls in compliance. Fight Voter Fraud, Inc. has regularly provided registrars with data that they could use to clean the voter rolls. While we have received positive feedback from some registrars, very few have taken ample time to adequately review the information we have sent over.

Furthermore, we are deeply concerned that there are many Registrars of Voters in CT that are in violation of multiple state statutes. Every registrar that has violated CT State Statutes will be made public in our expose we will be publishing for the media, and it will be on our website shortly before the election.

We have made the Secretary of the State, Stephanie Thomas aware of the certification issues since July 9, 2024, along with Kirsten Sullivan (head of election), Nancy DiNardo (D) & Ben Proto (R).

The CT State Statues need to be followed – especially by your Registrars, and we will be making the public aware of the neglect of any and all non-compliant Registrars in this extremely important election. Respectfully,
